GE Aviation - StandardAero

EASA Type Certification for the CF34-1 /-3 engine models is granted, in accordance with Article 3 paragraph 1 (a)(i) of Commission Regulation (EU) No 748/2012, based on the Luftfahrt-Bundesamt Germany Type Certificate Data Sheet (TCDS) number 6320. It is recognised that Type Certification has previously been performed by a number of EU states.

---

TYPE-CERTIFICATE DATA SHEET - EASA

Since its service entry in 1983, CF34 engines have earned an industry leading reputation as one of the cleanest and most fuel efficient engines in its class. The CF34 is used on a number of jet airliners, including the Bombardier CRJ series, the Embraer E-Jets, and the Chinese ARJ21 under development.

---

CF34-3Stands

About 1,400 CF34 engines power Challenger business jets, which fly far fewer hours per year than their airlines counterparts. On-condition maintenance (OCM), the standard in the aviation industry, is predictive or condition-based maintenance where indications from trend monitoring or periodic inspection drive a service event.

---

StandardAero > Engines > GE Aviation > CF34-3/-8 > 7/10 ...

Hot-section improvements have significantly reduced the unscheduled removal rate and have doubled the engine's on-wing capability to more than 2,000 hours. The TF34 is the father of the CF34, a commercial version that powers business jets and regional jet airliners.
