Where The Conflict Really Lies

The real conflict is not between science and faith but between science and a 'naturalistic', materialist view of the world. Scientists are not permitted to include theistic beliefs in their accounts of reality; they must adhere to the tenets of what is, in many cases, itself a quasi-religion—a worldview and method which limits the utilization of specific material.

## Where The Conflict Really Lies : NPR

Where the Conflict Really Lies: Science, Religion, and Naturalism. Plantinga's book is a semi-popular treatment of the conflicts, real or perceived, between science and religion, broadly construed. Because these disciplines are so broadly construed, the Christian who is interested in apparent conflicts between science and biblical Christianity will likely be somewhat disappointed in Plantinga's treatment.

Where the Conflict Really Lies - Alvin Plantinga - Oxford ...

Alvin Plantinga confronts this tension in Science, Religion, & Naturalism: Where the Conflict Really Lies, arguing that Draper has things precisely backward. There is indeed a conflict between science and religion, but that conflict is not between science and Christianity (or western monotheism) but between science and Naturalism.

Where the Conflict Really Lies - Book of Sand

His thesis in Where the Conflict Really Lies is as clear as it is provocative. He argues that "there is superficial conflict but deep concord between science and theistic religion, but superficial concord and deep conflict between science and naturalism." (p. ix) So there is a conflict, but it's not between science and (theistic) religion.
